SUPPLEMENTARY INFORMATION:

TITLE; ASSOCIATED FORM; AND OMB NUMBER: Department of Defense Suicide Event Report, 0720-TBD.

NEEDS AND USES: This data system will provide integrated enterprise and survey data to be used for direct reporting of suicide events and ongoing population-based health surveillance activities. These surveillance activities include the systematic collection, analysis, interpretation, and reporting of outcome-specific data for use in planning, implementation, evaluation, and prevention of suicide behaviors within the Department of Defense. Data is collected on individuals with reportable suicide and self-harm behaviors (to include suicide attempts, self harm behaviors, and suicidal ideation). All other DoD active and reserve military personnel records collected without evidence of

reportable suicide and self-harm behaviors will exist as a control group. Records are integrated from enterprise systems and created and revised by civilian and military personnel in the performance of their duties.

AFFECTED PUBLIC: Individuals and households

ANNUAL BURDEN HOURS: 330

NUMBER OF RESPONDENTS: 1975

RESPONSES PER RESPONDENT: 1

AVERAGE BURDEN PER RESPONSE: 10 minutes

FREQUENCY: As required by a qualifying event.

Form completers are behavioral and medical health providers, military unit leadership or their designees. The DoDSER form is used to collect information regarding suicide events of military service members. Form completers collect information from military personnel records, military medical records, enterprise data systems within the DoD and persons (respondent) familiar with the event details. Respondents include but are not limited to family members, friends, unit members, unit leadership and clergy members. The DoDSER form data is used to produce ad hoc reports for services leadership and the DoDSER Annual Report. The annual report is a comprehensive on the data collected which provides information for the DoD suicide prevention effort.

Dated: September 11, 2013.
